

Dear Parents,

Hope you are well,

Please be advised that the school is preparing to provide screening for the students' return to school after winter break.

Please note that the school staff and faculty will be tested prior to the start of school in January 2021.

This screening process is mandatory for the students' return to school. We will keep you updated on when the screening will be hosted.

Attached is a [consent form](#) for you to sign and bring back for your child. Please make sure to sign ONE consent form for EACH of your children.

Deadline to submit the consent form is Sunday, 13th December 2020. Please make sure that all the information is filled out and submitted to the school.

Students who do not return a consent form will not be able to receive the screening from the school and will have to do it privately prior to the start of school.

Please note: The test must be done within 48 hours prior to returning to school, if it is being done privately and not with the school.

Thank you for your cooperation,
