

Dear Parents,

Hope you are well,

We hope you had a restful winter vacation and are ready to come back refreshed to semester 2 of this academic year.

As we prepare to resume school by Sunday, 3rd January 2021, we would like to draw your attention to several details prior to the students' return to learning.

Medically administered COVID-19 testing will be made available for students in the school building starting 9:00 am to 11:30 am on **Saturday, 2nd January 2021**.

Students will get tested by a medical professional from the Ministry of Public Health.

Students who have not submitted a consent form prior to the start of winter vacation, may bring a consent form with them on Saturday. **However, no student will take the test if a consent form is not presented.**

Please make sure the student brings their Qatari ID on Saturday to ensure proper registration.

Please note that staff and faculty will also be tested prior to the school opening.

Thank you for your support and cooperation,
